- Future projects – Wi-Fi at the pool, Dooty Calls, and adding a shed at the pool
 - Thoughts were shared on the subject. Al and Patti were not present and we discussed having them present for any vote as they have background/more detailed info should questions be asked prior to a vote. It was suggested to hold off on vote until next meeting or the following one, which is our annual meeting. If mentioned at the annual meeting a vote would not take place there. We would solicit feedback regarding residents thoughts and vote afterwards
- Website – The website is not as functional/updated as the board would like. Discussed possibilities of switching. No decisions were made to change at this point. It was mentioned that if we do switch it would be prudent to make sure we own the site, domain, and code
- Light on Dranesville road – We were recently contacted by the Dranesville District supervisor asking if we would like a light at Kingstream Drive and Dranesville Road. Due to the intersection the light would be located on Dranesville road. The board supported this addition and the District supervisor was informed
- Meeting adjourned at 8:35pm
